GARPA

HISTORY

LINKING GENERATIONS.

Since our inception in 1979 we have been transforming intangible values into exquisite garden furniture. Garpa has its origins in the English garden tradition, but our modern classics set new standards for uniquely individual furnishing styles. As timeless favourites they become a source of pride and pleasure.

FONTENAY

UNMISTAKABLE CURVE: MASTERPIECES
WITH AN AWARENESS OF TRADITION
TAKE THE FLAIR OF THE BELLE ÉPOQUE
TO RENEWED GLORY.

Functional aesthetics prove their worth not only in country houses. Garden furniture steeped in history blends harmoniously into the overall architectural design. From the outdoor foyer to unique settings - the Fontenay collection, which can be effortlessly folded or adjusted, opens up new perspectives on striking residences and sophisticated lifestyles.

SUMMERFIELD

TRADITIONALLY NATURAL ELEGANCE:
CLASSIC TEAK DESIGN ENNOBLES
GARDENS AND PARKS AND WELCOMES
TO EARLY MORNING TEA.

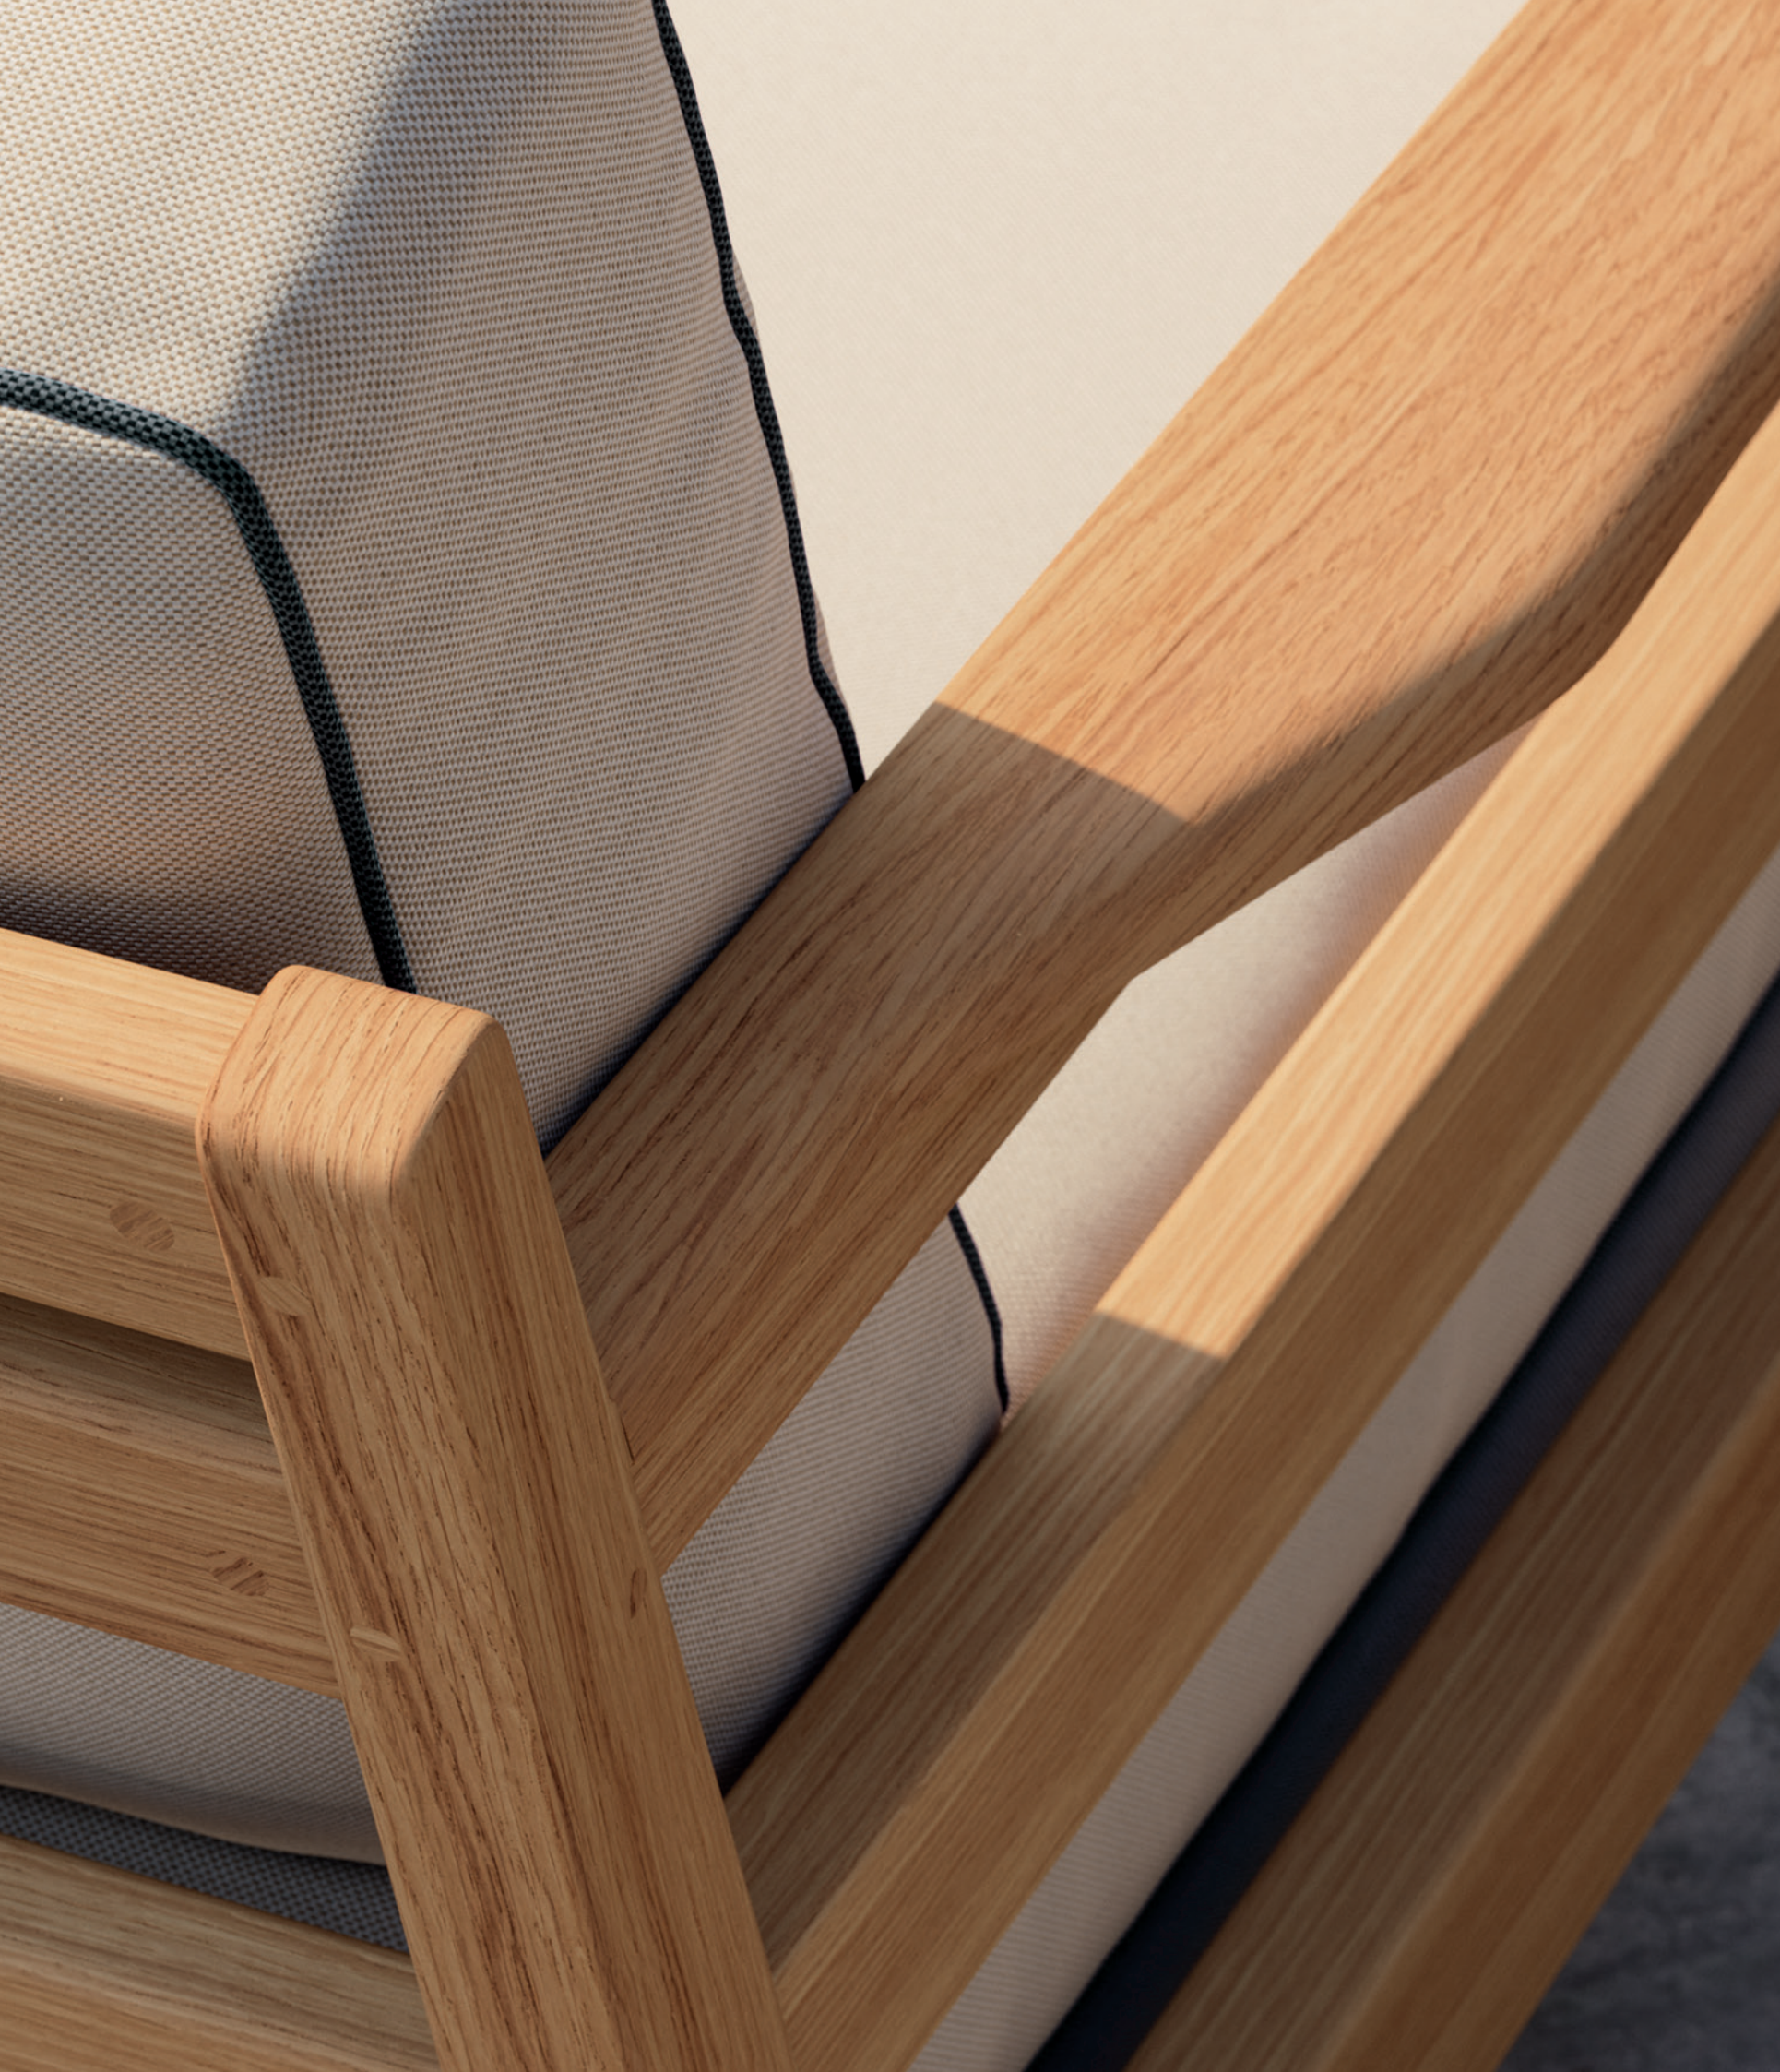

The rustling of leaves accentuates the harmonious interplay of flora and fauna. Everything seems to be in motion. Comfortable retreats invite repose and contemplation. Let your gaze roam into nature, listen to the birds and savour pleasant fragrances, like that of freshly mown grass - a moment of peace that will last for a very long time.

Run your fingers through the soil and feel how your thoughts take shape - where everything is in perfect order and always within reach, there is room for imagination and creative ideas. Aromatic kitchen herbs can also be cultivated in a limited space and presented in the Normandy plant ladder as a tasteful arrangement with practical benefits.

CHARACTER

INDIVIDUALITY UNFOLDING.

Garpa is at home outdoors. We draw inspiration from nature, into which our furniture and accessories harmoniously merge. This relationship is perfected by people who understand the garden as a vital and living space to be truly appreciated, and design it according to their personal preferences. People like you.

Evolved Values

TEAK IS A GIFT OF NATURE

Like no other wood, teak withstands rain, sun, and frost, without varnish or chemical treatment. Garpa uses material derived exclusively from sustainably managed plantations, which owing to their continuously renewable wood mass, bind large amounts of CO₂. Garpa was one of the first European companies to apply for product-certification (COC) in line with the guidelines of the Forest Stewardship Council® (FSC license No. CO13733), and in 1998 was awarded the certification code NC-COC-016417. Over the course of time a noble, silver-grey patina forms on the surface of the wood, which is considered a veritable seal of quality.

Exclusive Manufactories

GARPA'S WEALTH OF EXPERIENCE

It all starts with the selection of the teak wood and an intuitive feel for its natural grain - the flow of which is paramount for optimal positioning during construction. Furthermore, combined experience and superb craftsmanship make it possible to realise unusual shapes. Our high-quality materials, such as stainless steel, supple woven cord, powder-coated steel and many more, are crucial for the creation of aesthetically pleasing combinations. Garpa produces exclusively in selected manufactories. Timeless design, sensitive use of resources and maximum comfort, set standards and create a counterpoint to fast consumption.

Lifestyle with Tradition

IT ALL BEGAN IN ESCHEBURG, IN OUR HEAD-
QUARTERS WITH WINDOWS OPEN TO THE
WORLD. SINCE 1979 WE HAVE BEEN FULFIL-
LING THE DREAM OF LIVING OUTDOORS.
